TRAFFIC SAFETY

Pedestrians

- Keep your eyes and ears alert. Talking on your cell phone and listening to music can distract you and reduce your ability to hear oncoming traffic.
- Cross the street at intersections and crosswalks.
- Dress to be seen. Wear a bright piece of clothing at all times.
- Don’t let hats and hoods impair your peripheral vision – you should be able to see on both sides.
- Look both ways before crossing a street or intersection.
- If a driver appears to not see you or slow down, stay where you are and don’t attempt to cross the street.
- Contact SAFEwalk whenever you are walking alone at night.
- Cars and scooters must yield to pedestrians in a crosswalk.

TRAFFIC SAFETY

Bikes

- Communicate with other road users.
- Be visible. Make sure that other drivers can see you.
- Communicate with other drivers.
- Signal turns and lane changes.
- Be aware of hazards.
- Watch for other traffic, including pedestrians, at intersections and driveways.
- Obey all traffic signs and signals.
- Always ride with traffic.
- Ride at least three feet from parked cars to avoid being hit by a suddenly opened car door.
- Cross railroad tracks at an angle to avoid catching your wheel and falling.
- Ride defensively. Be aware of what is going on all around you, and watch out for other drivers’ mistakes.
- Wear a helmet.

Bikes

Bike racks on buses
Why not combine biking with taking the bus? Bike racks on city buses provide the ultimate in convenience for the bicycle commuter. All Metro buses are equipped with bike racks. Let’s Rack and Roll!

Please note: each bus can only carry two bikes. Bikes are not allowed to be transported inside the bus.
